Reasons for Allowance

1. Examiner has reviewed and considered Applicants remarks and comments as indicated on page 6 of Applicant's response dated 06/26/2006, and per Applicants comments Examiner is withdrawing the previous rejection and placing claims 1 – 15 are in condition for allowance.

The following is an Examiner's statement of reasons for allowance.

As Applicant point out under Remarks section, pages 5 – 6, the prior art of record does not teach or fairly suggest at least the limitations of:

A tracing method, comprising:

“...said user trace write command being a standard write command without trace code information identifying the type of data to be traced;

detecting a write to at least part of said user trace data register; and

in response to said detected write, generating a trace record that includes at least part of the user trace data in said user trace data register;

wherein execution of said plurality of instructions result in tracing a subset of program execution attributes of interest to said user.”, and as best illustrated by Figure 4, in such a manner as recited in independent claims 1, 8 and 15.

Therefore, all remaining claims 1 – 15 are in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
